About Stamats

Stamats is recognized and respected as the nation’s higher education integrated-marketing thought leader. Our comprehensive array of innovative services has set the standard for pairing insightful, research-based strategic counsel with compelling creative solutions. We promise our clients the highest level of professional service and attention to detail in the industry because, in the end, we know our success is measured entirely by theirs.

Research, Planning, and Consulting
- Brand clarification and development
- Image and perception studies
- Recruiting and marketing assessments, plans, and counsel
- Tuition pricing elasticity and brand value studies

Strategic Creative
- Institutional, admission, and advancement websites
- Mobile and social media solutions
- Recruiting and advancement campaigns and publications
- Virtual and experiential tours
- Full-media advertising campaigns
Objectives and Method

- The University of North Carolina Asheville engaged Stamats, Inc., to conduct national, regional, and statewide environmental and competitive analysis to assess market viability for a set of potential master’s degree programs.

- Currently, the University offers only an MLS degree and is evaluating the positives and negatives of adding other masters level offerings.

- Analysis of degrees conferred on a national and local level is provided to show trends in demand and extent of competitive pressure.

- Potential local/regional competitor institutions and their related programs are profiled.
Methods: Degree Trends and Competitor Review

- To measure degree demand, Stamats will explore degree completion trend data for the most recent five years (2007–2011) for master’s degree programs at the national, regional, and state levels; degree completion trend data is used to assess whether demand for specific areas of study is increasing, flat, or decreasing, which will aid in determining market viability.

- Degree completion data is obtained using the Integrated Postsecondary Education Data System (IPEDS) for individual program disciplines down to the six-digit Classification of Instructional Program (CIP) codes, as reported to the U.S. Department of Education’s National Center for Education Statistics by all institutions that participate in federal student financial aid programs.

- There are CIP codes that are a perfect match for some programs under consideration and there are programs which could be recorded in two or three different codes. The codes selected for this analysis are identified in the following chart.

## CIP Codes and Descriptions

<table>
<thead>
<tr>
<th>CIP</th>
<th>Program Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>23.0501</td>
<td>Creative writing</td>
<td>A program that focuses on the process and techniques of original composition in various literary forms such as the short story, poetry, the novel, and others. Includes instruction in technical and editorial skills, criticism, and the marketing of finished manuscripts.</td>
</tr>
<tr>
<td>51.2201</td>
<td>Public health</td>
<td>A program that generally prepares individuals to plan, manage, and evaluate public health care services; to function as public health professionals in public agencies, the private sector, and other settings; and to provide leadership in the field of public health. Includes instruction in epidemiology, biostatistics, public health principles, preventive medicine, health policy and regulations, health care services and related administrative functions, public health law enforcement, health economics and budgeting, public communications, and professional standards and ethics.</td>
</tr>
<tr>
<td>40.0499, 3.0103, 3.0104</td>
<td>Climate change and society</td>
<td>A program that focuses on environment-related issues using scientific, social scientific, or humanistic approaches or a combination. Includes instruction in the basic principles of ecology and environmental science and related subjects such as policy, politics, law, economics, social aspects, planning, pollution control, natural resources, and the interactions of human beings and nature. A program that focuses on the application of biological, chemical, and physical principles to the study of the physical environment and the solution of environmental problems, including subjects such as abating or controlling environmental pollution and degradation; the interaction between human society and the natural environment; and natural resources management. Includes instruction in biology, chemistry, physics, geosciences, climatology, statistics, and mathematical modeling.</td>
</tr>
<tr>
<td>50.0607</td>
<td>Documentary studies</td>
<td>A program that prepares individuals to produce nonfiction film and video. Includes instruction in film and video writing, directing, and production; film studies; history of the documentary; research techniques; videography; editing; and business aspects of film production.</td>
</tr>
</tbody>

**Sustainability**
A program that focuses on environment-related issues using scientific, social scientific, or humanistic approaches or a combination. Includes instruction in the basic principles of ecology and environmental science and related subjects such as policy, politics, law, economics, social aspects, planning, pollution control, natural resources, and the interactions of human beings and nature. A program that focuses on the application of biological, chemical, and physical principles to the study of the physical environment and the solution of environmental problems, including subjects such as abating or controlling environmental pollution and degradation; the interaction between human society and the natural environment; and natural resources management. Includes instruction in biology, chemistry, physics, geosciences, climatology, statistics, and mathematical modeling.

**New media, computer sciences**
A program that focuses on the development, use, critical evaluation, and regulation of new electronic communication technologies using computer applications; and that prepares individuals to function as developers and managers of digital communications media. Includes instruction in computer and telecommunications technologies and processes; design and development of digital communications; marketing and distribution; digital communications regulation, law, and policy; the study of human interaction with, and use of, digital media; and emerging trends and issues.

**Atmospheric sciences**
A general program that focuses on the scientific study of the composition and behavior of the atmospheric envelopes surrounding the earth, the effect of earth's atmosphere on terrestrial weather, and related problems of environment and climate. Includes instruction in atmospheric chemistry and physics, atmospheric dynamics, climatology and climate change, weather simulation, weather forecasting, climate modeling and mathematical theory; and studies of specific phenomena such as clouds, weather systems, storms, and precipitation patterns.

**Climate sciences**
A general program that focuses on the scientific study of the composition and behavior of the atmospheric envelopes surrounding the earth, the effect of earth's atmosphere on terrestrial weather, and related problems of environment and climate. Includes instruction in atmospheric chemistry and physics, atmospheric dynamics, climatology and climate change, weather simulation, weather forecasting, climate modeling and mathematical theory; and studies of specific phenomena such as clouds, weather systems, storms, and precipitation patterns.
## CIP Codes and Descriptions
